

# Curriculum Overview for Year 4

## English

As writers, the children will be exploring a variety of contemporary narratives to inspire them to write their own short story. The children will then go onto writing a newspaper report about the tragic sinking of the Titanic, followed by a week of poetry.

As readers, the children will read a variety of texts based on our Topic of the Titanic. These will include diary entries, stories, explanation texts and information texts. The children will take part in class guided reading sessions where they shall take turns to read parts of the text aloud and discuss their understanding of what they have read.

## Art & Design

As chefs, the children will be recreating a 3<sup>rd</sup> class Titanic menu and then go on to create and cook our own menu for the Titanic. Alongside this, we will be learning about food hygiene, healthy lifestyles and balanced diets.

## Computing

As coders, the children will learn how to become software developers as they experience creating simple educational games.

## Mathematics

As mathematicians, the children will develop their understanding of place value up to 4 digit numbers. They will be able to identify what each digit represents and be able to order numbers from smallest to largest. They will also begin to identify place value in other representations such as money and measures.

Year 4 will be able to then apply their understanding of place value to addition and subtraction questions. The children will develop their understanding by using concrete apparatus, formal written methods and a variety of mathematical investigations. Shape and symmetry will also be explored by the children.

Throughout the year, the children will continue to improve their understanding of the times tables up to 12x12. A times tables test shall be conducted on Friday afternoons.

# Titanic's Maiden Voyage

## Modern Languages

French this year will be delivered by Madame Warnes on Friday mornings. As linguists, the children will develop their French vocabulary through songs and games. The children will also begin to learn more complex sentences and learn about French traditions and celebrations.

## Music

As musicians, the children will be exploring the Titanic's soundtrack and will then perform and recall this as an ensemble led by Miss Knight.

## Science

As scientists, the children will be learning about the different states of matter through a variety of investigations. They will develop their understanding of what solids, liquids and gases are and how these materials can be changed by heating or cooling.

## History

As historians, we will be learning about the Titanic and her maiden voyage. The children will discover how and where she was built, the different parts of the ship, what life was like for the different passengers and the disaster that led to her tragically sinking. The children will also use their knowledge to put these events into chronological order.

## Physical Education

As competitors, the children will learn the basic skills for Volleyball and then will be applying their skills in games. As dancers, the children will be learning and choreographing a basic street dance routine to Uptown Funk by Bruno Mars. PE will be delivered by Miss Seaton on Tuesday afternoons and by Mr Tranmer on Friday mornings.

## Religious Education

As theologists, the children will learn about how people have put their faith into action. The children will research people and groups such as Mother Teresa and the Salvation Army and find out how they have used their faith to help other.

### Important Dates

**Monday:** Spellings handed out

**Tuesday:** P.E. (outdoors/indoors)

**Thursday:** Homework handed in and library books changed (if needed).

**Friday:** P.E. (outdoors/indoors) with Mr Tranmer (AM), French with Madame Warnes (AM), times tables test and spelling test.

Miss Seaton is out of the classroom Friday AM

### Homework

Year Four will be given weekly spellings that will be tested that Friday. Although we will focus on these in school, practice at home would be much appreciated.

The children will also be asked to complete a 'Learning Journal' as part of their homework. They will be asked to demonstrate their learning from literacy, numeracy or topic sessions that week, and they may choose their own way of doing so. Please see the front of their Learning Journal for further details and ideas.

Reading is an integral part to all learning. Please encourage your child to read independently, and when possible hear them read aloud. It is important that your child understands and can talk about what they are reading as well as decoding the words. Please use the suggested questions at the front of the reading record to help you with this.

Homework will be given on Fridays for completion by the following Thursday.
