

UON MULTIPLY PROJECT

Raising confidence in Maths for the whole family

A fully-funded DfE project to increase adult-numeracy skills in North Northamptonshire. We want to work with families to show them that Maths isn't something to be scared of and you can even have fun whilst learning!

We are hosting a number of afterschool workshops in Corby, Kettering and Wellingborough. These are for parents/carers and their children.

November:

Tuesdays at Corby Stephenson Way 4-6pm

Wednesdays at Wellingborough Hemmingwell 4-6pm

December:

Wednesdays Kettering Venue TBC 4-6pm

All details can be found on our Facebook page

<https://www.facebook.com/UONMultiplyProject/>

Coming Soon - March 2024 onwards - Parent Workshops

We would also like to offer schools workshops for parents at morning drop-off or afternoon pick-up where we can share tips and tricks for supporting numeracy from home. We can support parents/carers with their own maths skills and signpost them on to other services where they can gain a qualification.

Please contact Amy if you're interested in our parent workshops:
