

# Medium Term Plan - Y5 (SUMMER) INVADERS AND SETTLERS

Intent							Implementation							Impact							Celebration & sharing							
Within this topic, Y5 will widen their knowledge of the Roman Empire in Britain and the Anglo-Saxon invasions which followed, allowing us to explore the life of an Anglo-Saxon and make direct comparisons between Anglo-Saxon settlements and modern towns and villages - such as our very own!							Through a range of lessons spanning across the curriculum, Y5 will explore a range of research-gathering and enquiry-question methods to develop a greater understanding of early invaders in Britain							Y5 will develop their understanding of Anglo-Saxon invaders, linking to modern day settlements and how these have adapted and changed following Anglo-Saxon invasion and changes to modern technologies. Y5 will gain greater confidence in their knowledge of Anglo-Saxon invaders and use this to create quizzes and artwork which will support and deepen their understanding further.							Y5 will share their learning through Tapestry to their parents. Children will also show their learning through their POW homework projects.							
We will conduct research into the lives and settlements of early invaders of Britain, discuss how and why these invaders targeted Britain and re-enact our own invasion scenes from our learning of history and art.							During this unit, the children will deepen their understanding through performance and re-enactment opportunities; speaking and listening activities, writing opportunities, computing exercises and outdoor learning.							To extend our curriculum, Y5 will make comparisons between Anglo-Saxon settlements and modern towns and villages by creating an invasion assessment of King's Cliffe.
